AUTOMATIC ELECTROMECHANICAL PRESS VK 015 VK 015-ECO

Dynma

VK-015

OUR PERSEVERANT AND INNOVATIVE EFFORT

The automatic electromechanical press VK015 is a result of DYNMA experience in the furniture assembly industry. With the adoption of new and advanced technology based on electronic vectorial control and using a wide range of high quality mechanic components, results an auto-adjustable press with high production rates.

* Available ECO version with simplified operation cycle and reduced working velocity while remaining a fully automatic setting press. Starting from the top model, the VK015-ECO model press offers the benefits of a high level press adapted to medium productions.

BASIC EQUIPMENT INCLUDED

- Programming touchscreen.
- Conveyor belt with progressive start/stop.
- Pre-assembling area integrated.
- "CE" Safety Standards.
- Front and rear photoelectric safety barrier.

Complete and useful control panel. It will enable you to monitoring all parameters like strength of press, operation type, pressing time and alarm management.

EXTRA OPTIONS

- A- Intermediate lateral press group.
- B- Automatic height positioning for a lower and intermediate lateral press group.
- C- High lateral press group with automatic descend system.
- D- Independent and prepared pre-assembling station, synchronized with press.
